Sub-Investigator

Sponsor: Abbvie

Direct Cost Amt. Supported: \$124,445

Years: 2021-Present

A Multicenter, Open-Label Study Evaluating the Long-Term Safety, Tolerability, and Efficacy of Monthly Subcutaneous Administration of Fremanezumab for the Preventive Treatment of Episodic and Chronic Migraine in Pediatric Patients 6 to 17 Years of Age

Role: Sub-Investigator

Sponsor: Teva Pharmaceuticals

Direct Cost Amt. Supported: \$323,440

Years: 2020-Present

A Multicenter, Randomized, Double-Blind, Placebo-Controlled, Parallel-Group Study Comparing the Efficacy, Safety, and Tolerability of Subcutaneous Administration of Fremanezumab Versus Placebo for the Preventive Treatment of Episodic and Chronic Migraine in Pediatric Patients 6 to 17 Years of Age

Sub-Investigator

Sponsor: Teva Pharmaceuticals

Direct Cost Amt. Supported: \$196,000

Years: 2020-Present

Preventive Treatment of Migraine: Outcomes for Patients in Real-World Healthcare Systems

Completed/Closed

Sub-Investigator
Sponsor: Eli Lilly and Company
Direct Cost Amt. Supported: \$33,000
Years: 2019-Present

Randomized, Double-Blind, Multi-Center, Parallel-Group Comparison of the Efficacy and Safety of the C213 (Zolmitriptan Intracutaneous Microneedle System) to Placebo for the Acute Treatment of Cluster Headaches

Sub-Investigator
Sponsor: Zosano Pharma Corporation
Direct Cost Amt. Supported: \$23,479
Years: 2019-2021

A Multicenter, Randomized, Double-blind, Placebo-controlled, Crossover Study to Evaluate the Efficacy and Safety of Zolmitriptan Nasal Spray for the Treatment of Acute Migraine in Subjects Ages 6 to 11 years, with an Open-Label Extension

Principal Investigator
Sponsor: Impax Laboratories, Inc.
Direct cost amount supported: \$93,773
2018-2019

A Phase 3, Randomized, Double-Blind, Placebo-Controlled, Parallel Group, Multi-Center Trial to Evaluate the Efficacy and Safety of a Single Treatment of DaxibotulinumtoxinA for Injection in Adults with Isolated Cervical Dystonia (ASPEN-1)

Sub-Investigator/Rater – 3% personal effort
Sponsor: Revance Therapeutics, Inc.
Direct cost amount supported: \$120,000
2018-2019

Placebo-Controlled Randomized Withdrawal Evaluation of the Efficacy and Safety of Baclofen ER Capsules (GRS) in Subjects with Spasticity Due to Multiple Sclerosis

Sub-investigator – 10% personal effort
Principal Investigator: Dr. Annette Okai
Sponsor: SunPharma Advanced Research Company Ltd.
Direct cost amount supported: \$121,370
2014-2019

A Multi Center Extension Study of PRX-102 Administered by Intravenous Infusions Every 2 Weeks for 24 Months to Adult Fabry Patients

Sub-investigator – 10% personal effort
Principal Investigator: Dr. Raphael Schiffman
Sponsor: Protalix Ltd.
Direct cost amount supported: \$747,096
2014-2019

A study of memantine XR for neuroprotection in newly diagnosed high-grade glioma

Safety review committee clinician – 5% personal effort
Principal investigator: Dr. Isaac Melguizo-Gavalines
Sponsor: Texas Neuro-Oncology Associates
Direct cost amount supported: \$80,000

2014-2016

A Multicenter, Global, Observational Study to Collect Information on Safety and to Document the Drug Utilization of Tecfidera (Dimethyl Fumarate) When Used in Routine Medical Practice in the Treatment of Multiple Sclerosis (ESTEEM)

Sub-investigator – 10% personal effort

Principal Investigator: Dr. Annette Okai

Sponsor: Biogen Idec

Direct cost amount supported: \$17,355

2014-2016

A Study to Assess the Safety, Tolerability and Effectiveness of NUEDEXTA (Dextromethorphan 20mg/Quinidine 10mg) in the Treatment of Pseudobulbar Affect (PBA)

Principal investigator – 50% personal effort

Sponsor: Avanir Pharmaceuticals, Inc.

Direct cost amount supported: \$22,800

2013-2016

Building Sustainable Community Partnerships

Principal investigator – 15% personal effort

Sponsor: Epilepsy Foundation National Office

Direct cost amount supported: \$0

2010 – 2011

Evaluation of the AMA Physician's Guide to Assessing and Counseling Older Drivers Web-Based Educational Program for residents

Co-investigator – 8% personal effort

Principal Investigator: Dr. Germaine Odenheimer

Sponsor: AMA

Direct cost amount supported: 828\$

2010 – 2011

Activating Autoantibodies in Autoimmune Orthostatic Hypotension

Co-investigator – 5% personal effort

Principal Investigator: Dr. David Kem

Sponsor: AHA

Direct cost amount supported: \$0

2010 – 2011

Pediatric Registry for Acute Ischemic and Sinovenous thrombotic Events (PRAISE)

Principal investigator – 80% personal effort

Departmental Research Project

Direct cost amount supported: \$4,500

2010 – 2011

* Residents mentored for their Academic Scholarship Program:

- Gabriella Purcarin (2009-2010)

- Shuchi Chaudhary (2010-2011)

Antibody Mediated Neuronal Cell Signaling in sydenham chorea

Consultant – 5% personal effort

Principal Investigator: Dr. Madeleine W. Cunningham

Sponsor: OCAST

Direct cost amount supported: 0\$

2009 – 2011

Ferritin heavy chain: therapeutic potentials and mechanisms in ischemic stroke

Consultant – 20% personal effort

Principal Investigator: Dr. Robert Broyles

Departmental Research Project (Biochemistry and Molecular Biology)

Direct cost amount supported: 0\$

2009 – 2010

* Pre-doctoral work of Mr. Haitham AbdelMoaty

A New Device and Needle Design to Improve Lumbar Puncture Results

Consultant – 25% personal effort

Principal Investigator: Dr. Rob Perry

Sponsor: personal – Dr. Perry

Direct cost amount supported \$0

2008 – 2011

The IMPACT Study: The IMPACT of BIOTRONIK Home Monitoring Guided Anticoagulation on Stroke Risk in Patients with Implanted ICD and CRT-D devices

Sub-Investigator – 10% personal effort

Principal Investigators: Drs. Christina Murray, Dwight Reynolds

Sponsor: BIOTRONIK, Inc.

Direct cost amount supported: \$0

2008 – 2011

TXA 107979 study: “A Randomized, Multicenter, Placebo-Controlled, Parallel Group Study to Evaluate the Efficacy and Safety of a Combination Product Containing Sumatriptan and Naproxen Sodium for the Acute Treatment of Migraine in Adolescents”

Sub-Investigator – 90% personal effort

Principal Investigator: Dr. James Couch

Sponsor: GlaxoSmithKline Pharmaceuticals

Direct cost amount supported: \$30,000

2008 – 2011

Neural Correlates of Gated Word Recognition in Adult Spanish-English Bilinguals and English Monolinguals

Consultant – 5% personal effort

Principal Investigator: Dr. Frank Bousten

Departmental Research Project (Communications Sciences and Disorders)

Direct cost amount supported: 0\$

2008 – 2010

* Pre-doctoral work of Mr. Derick Weber

Multi-center collaborative migraine family collection, characterization, and candidate locus screening

Principal Investigator – 85% personal effort

Sponsors: American Headache Society and GlaxoSmithKline

Pharmaceuticals for a multi-center study lead by Dr. Kathy Gardner (University of Pittsburgh)

Direct cost amount supported: \$5,000

2007 – 2010

Teaching Materials Developed

TEECH-Oklahoma: Thromboembolic Events in Children – Oklahoma:
A prospective registry

Co-Principal Investigators: Drs. René McNall-Knapp, Kapil Saxena,
Lane Lanier

Departmental Research Project (Hematology-Oncology)

Direct cost amount supported: \$0

2007 – 2008

2015 Neurology Acting Internship

Established de novo sub-internship in Neurology after successfully
working within the Curriculum Committee to make Neurology an option
for sub-internship rotations.

2013 Headache Fellowship Curriculum

Developed a curriculum for the Headache Fellowship at Baylor
University Medical Center, including case discussions, journal club,
and didactic lectures

2011-2012 Neurology Clerkship Curriculum

Established de novo a neurology clerkship for 4th year medical
students at Texas A&M Health Sciences Center at Dallas

2011 Objective Structured Teaching Evaluations (OSTE)

Established a yearly curriculum to improve residents' teaching skills,
including didactic lectures to teach "how to teach", how to develop
teaching material followed by residents' assessment utilizing OSTE

2010 Handover policy

Developed a Handover policy that improves residents learning and
patient safety

2008-2011 Doctoring Skills

Developed a three-year curriculum for neurology residents, which
covers the different professional aspects of being a physician, besides
medical knowledge (topics covered include: professionalism,
empathy, medico-legal aspects, teaching, note-writing, communication
skills, fatigue, collegiality, etc.)

2008 Training and Assessment Action Plan (TAAP)

Developed a standardized tool for mentoring and monitoring residents
who are having academic difficulties to assist them in reaching the
standards for advancement
